I'm a freelance full stack developer, born and raised in the Bay Area. I enjoy camping, board games, cryptocurrency and building full stack applications. Over the past year I've worked with clients to build and deploy well designed websites with simple and intuitive CMS. I also designed and built proprietary trading platforms for cryptocurrency and prediction markets.

---

## SKILLS

**Languages:** Javascript, Typescript, Python, HTML5, CSS3, French

**Frameworks and Libraries:** React, React-Native, Scss, Emotion, Babel, Webpack

**Backend:** Node.js, MongoDB, Express, Django, PostgreSQL, OAuth, JWT

**Version Control and Workflow Management:** AGILE, Git, Asana, Trello

**Design:** Adobe Illustrator, Photoshop, Sketch, Figma, Autodesk Fusion 360

## EXPERIENCE

### Freelance / Full Stack Developer

MAY 2020 - PRESENT, SAN FRANCISCO

Over the past year, I've worked as a freelance full stack developer building websites and custom content management systems for clients in a variety of industries. I built OracleInsights a full stack trading platform that provides insights on negative risk opportunities on PredictIt and Augur trading platforms. I also built 38 North a platform that automates cryptocurrency arbitrage trading between US and South Korean cryptocurrency markets.

### Quantum Metric / Software Engineer, Customer Success Team

JULY 2019 - MAY 2020, SAN FRANCISCO

- Primary engineer servicing over \$5M in contracts for brands such as Lululemon, Western Union, eBay, Stubhub, Silicon Valley Bank, and CSAA Insurance.
- Wrote clean and readable Javascript to gather analytics data and help brands measure their KPIs.
- Worked with top brands to implement Quantum Metric on their digital platforms.
- Works with stakeholders across multiple teams (Product, UX, Fraud Prevention) to understand each teams needs and write quality code to ensure accurate data is provided.

### The Bosco / Product Designer, SF Operations Manager

JUNE 2015 - SEPTEMBER 2018, SAN FRANCISCO

- Designed and built custom digital experiences for our clients and core products for The Bosco.
- Lead designer on new core products including the Bosco Lite and Multicam. These products generated over \$10M in revenue for The Bosco during my time there.
- Designed over 50 highly custom digital experiences for brands such as Viacom, Tommy Hilfiger, Facebook, and Sephora.
- Launched the Bosco's San Francisco office. Hired and managed the SF team which consisted of at least 10 operations assistants and event staff throughout my tenure.
