I'm a full stack software engineer, data wizard, and linux evangelist from the San Francisco Bay Area. I'm a seasoned developer with over 8 years experience working in tech. Over the past few years I've worked as a full stack engineer on small teams where I've gained experience with a variety of tools and languages to bring applications from concept to

---

SKILLS

Backend: Node.js, Express, Python, Linux, Docker, NGINX, Restful APIs, Micro
Data: MongoDB, PostgreSQL, Snowflake, GCP, GraphQL, Tableau, Power BI, Airflow, DBT, Pandas, Jupyter

EXPERIENCE

Stratus Data / Software Engineer, Data Engineer
September 2021 - APRIL 2023, REMOTE

- As the sole full stack engineer at stratus data, I built and launched our client facing portal. I also worked on several internal tools to improve the efficacy of our team and enable data scientists on the team to launch client facing dashboards.
- As a data engineer, I worked with clients to build data pipelines using a variety of tools, including Airflow, DBT, Snowflake, BigQuery, SQL, Python and more. I also created APIs to transform and analyze data using natural language processing and market basket analysis.

Tide Pool Tech / Full Stack Software Engineer
MAY 2020 - Present, SAN FRANCISCO

- Built a full stack cryptocurrency trading platform to take advantage of arbitrage opportunities between US and South Korean markets.
- Built bespoke websites for clients with custom content management systems, primarily using the MERN stack (Mongo, Express, Node, and React).

Quantum Metric / Software Engineer, Customer Success Team
JULY 2019 - JULY 2020, SAN FRANCISCO

- Primary engineer servicing over $5M in contracts for brands such as Western Union, eBay and Lululemon.
- Wrote clean and readable Javascript to gather analytics data and help brands measure their KPIs.
- Worked with top brands to implement Quantum Metric on their digital platforms.

The Bosco / Product Designer
JUNE 2015 - SEPTEMBER 2018, SAN FRANCISCO

- Lead designer on new core products including the Bosco Lite and Multicam. These products generated over $10M in revenue during my time at The Bosco.
- Launched the Bosco's San Francisco office. Hired and managed the SF team which consisted of at least 6 operations assistants and event staff throughout my tenure.

County of Mendocino / Program Specialist
OCTOBER 2012 - JUNE 2015, UKIAH, CA

EDUCATION

California State University of Monterey Bay
AUGUST 2007 - MAY 2012, SEASIDE, CA
Computer Science, B.S.
